

## FLIGHT TRAINING INTERNATIONAL SIGNS FOR IMPLEMENTATION OF TRAINING AND RESOURCE MANAGEMENT SYSTEM MINT TRMS

**Kiel, 08. December 2016 - MINT Software Systems is proudly announcing the celebration of a service agreement with Flight Training International (FTI) for the delivery of the SaaS version of the MINT Training and Resource Management System (MINT TRMS) to support all training centers of the flight training services provider, headquartered in Denver, CO, USA.**

The agreement with Flight Training International, an FAA approved training center authorized under Title 14, Part 142, includes the delivery of the MINT TRMS planning, records and e-grading edition, that allows the “anytime, anywhere” access to training schedules, forms for electronic grading and system administration. It simplifies and optimizes the management of instructor allocation, classroom distribution, student allocation, course scheduling and the planning and optimization of flight simulator schedules.

“We are very proud to welcome Flight Training International to the MINT customer community”, says Frank Vieira Hugger Director Sales and Marketing at MINT Software Systems. “After evaluating the available products on the market FTI have nominated MINT Software Systems as their partner of choice for the future support of their growing business”, he adds.

“We were on the outlook for a modern, highly configurable and web based training planning and qualifications management platform and with MINT TRMS we have found it”, says Mike Medley, President at Flight Training International. “MINT will help us to significantly increase the effectiveness and readiness of the entire training organization, which in the end will also be a huge benefit for our customers too”.

MINT TRMS allows training organizations to optimize their training workflows and speed up the planning process with its outstanding scheduling and optimization capabilities. This unique platform helps training centers and airlines all over the globe to significantly enhance their efficiency and the day to day life of instructors and trainees with the instant online access to their training schedules, electronic forms, learning material and other training related data in the integrated and multifunctional web portal.

The agreement with Flight Training International includes the implementation of the complete MINT TRMS solution for training scheduling, record management, e-grading, in-depth reporting and analysis capabilities, as single, web based platform for all of the seven Flight Training International locations throughout the US.

### **About MINT Software Systems**

MINT Software Systems, headquartered in Kiel, Germany, with subsidiaries in Orlando, Florida and Sharjah, UAE and partner companies in Bucaramanga, Colombia and Kiev, Ukraine creates innovative training and resource management solutions used by major aviation players. MINT's SaaS and onsite solutions employing latest software technology, allowing efficient records and training scheduling for crew, ground and maintenance staff and guarantee trouble-free regulatory compliance with the AQP/ATQP programs of authorities like the FAA and EASA.

### **About Flight Training International**

Founded in 1993, Flight Training International (FTI) is an FAA approved training center authorized under Title 14, Part 142 to provide initial, recurrent, requalification and specialty flight training. From the A320 to the B747-400 we offer affordable flight training by airline pilots for airline pilots. We offer fully managed aviation training services from recurrent training to individual type ratings as well as complete training solutions for aircraft operators. Our staff of approximately 100 instructors has real world experience flying the aircraft they teach. At FTI pilots train in the same high quality level C and level D full flight simulators used by manufacturers and major airlines around the world. At FTI we believe that that 21st century pilots want to be trained by current pilots who understand the realities of operating modern jet aircraft in today's complex and ever changing ATC environment. For more information about FTI's flight training programs, please fill out a Training Request Form or call 1-800-233-0050.
